## Coyote POP-UP

- Perfect for large format graphic panels
- Many kits and additional designs available
- 7 new designer colours available in ribbed fabric at no extra charge

The **Coyote** popup display system combines strength and reliability with style and ease of use. Named "popup" because of its "small to large" pop-up action, this type of display system is still one of the most portable tradeshow and display solutions available.

The **Coyote** system **purple** frame features several unique advantages over other similar Popup display systems, especially its light weight and simplistic ease of use. Compared with complicated "snap in" channel bars and delicate locking/locating systems, the **Coyote** popup display system uses state of the art "**Rare Earth Neo Magnets**" on both its channel bars and locking/location systems. These make it very quick and simple to erect and take down, with practically no "easy to break" parts.

Full display systems are offered in a wide choice of configurations from basic tabletop kits to full 20' long displays. **Coyote** systems may be made with curved or also straight walls, single or double sided and offer the option of combining with either breath taking seamless graphic mural panels or versatile "Velcro friendly" fabric panels.

200 watt halogen available.

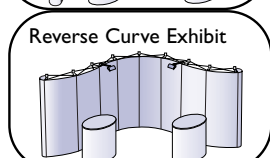

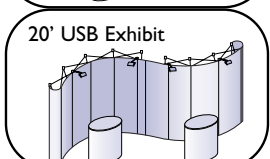

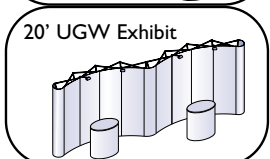

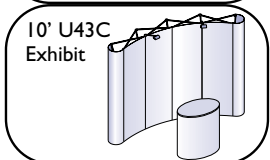

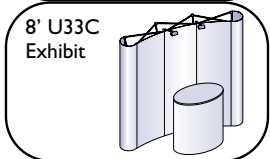

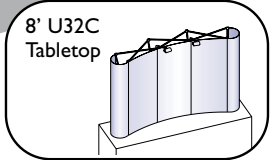

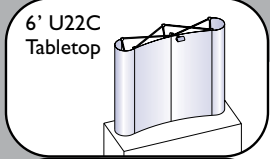

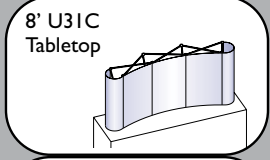

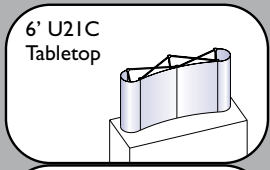

MADE  CANADA

## Ultima Plus POP-UP

- Perfect for large format graphic panels
- Many kits and additional designs available
- 7 new designer colours available in ribbed fabric at no extra charge

### Reliability

This pop-up frame is durably built to handle the wear and tear of any busy show schedule. It's all aluminum construction is lightweight and its 12" base makes it extremely stable.

### Simplicity

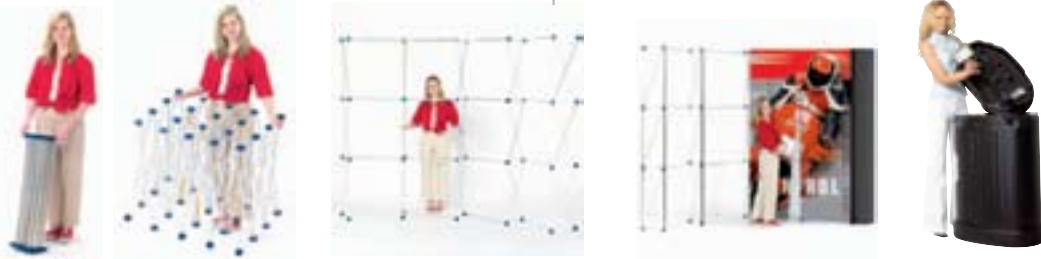

The frame pops up instantly, and the 3 in 1 folding channel bars \* allow for quick tool-free set-up ... just add lights and panels and it's ready to go.

### Portability

The 10' U43C packs into a single case - including panels, frame, lights, channel bars, and case to counter kit.

### Affordability

Ultima Plus is simply the best value and the highest quality pop-up in the industry. Optional fabric panels, 200W Halogen spotlights and Case-to-Counter conversion kit complete the perfect portable display.

### Efficiency

Set-up in seconds and packed away just as fast. This pop-up system is fast and efficient with a durable yet lightweight aluminum construction.

### Convenience

The durable fabric graphic system stays attached to the aluminum frame for storage and transportation.

## Hop-Up

- Graphics stay on the frame for speedy set up
- Packs away into a single portable case
- Hard case or soft case are available accessories

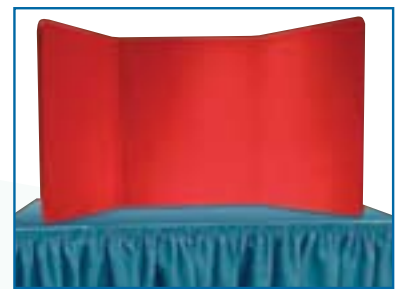

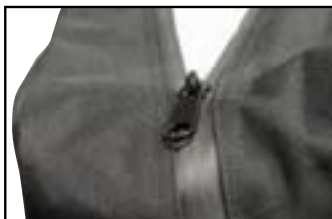

\* Applies to free standing units only.

## EFEX FOLDING PANEL SYSTEMS

This lightweight design has the ability to fold, making this the ideal choice for an exhibitor seeking flexibility to meet changing needs. These modular displays can be used as table-top displays or combined together to create floor displays in minutes without the need for tools. The addition of a header and lights to EFEX will create the perfect vehicle to promote your message while allowing for reconfiguration of the display for changing venues. Velcro® compatible fabric finish allows for full customization with a wide range of graphics. Add an EFEX display counter for a polished professional look.

Tabletop models available.

Replacement Bulb Pack available

### EFEX Carry Bag

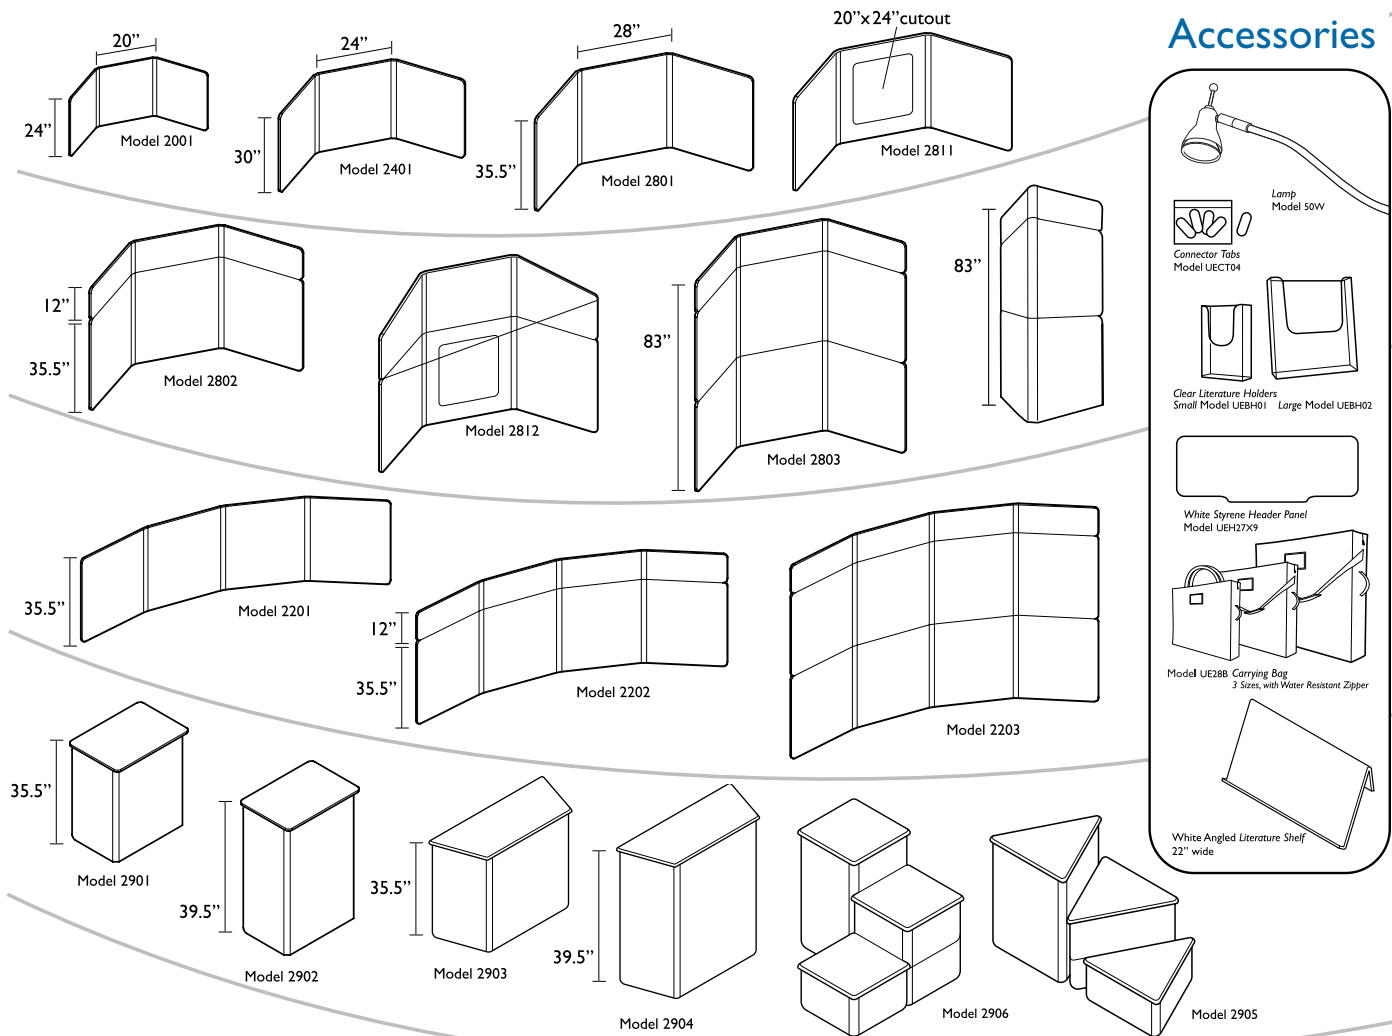

- Stylish black carrying bag
- Water resistant rubber zippered opening
- Transparent card pocket.
- With shoulder straps, & carry handle

### EFEX Light

This lightweight slip on light, adds dramatic impact on all EFEX displays. 50 watt MR16 Halogen bulb.
